Information Disclosure Statement

The information disclosure statement filed February 2, 2004 fails to comply with 37 CFR 1.97(d) because it lacks a statement as specified in 37 CFR 1.97(e). It has been placed in the application file, but the information referred to therein has not been considered.

The information disclosure statement filed February 2, 2004 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered. Applicant is advised that abstracts of foreign patents are not to be reported under the heading of "Foreign Patent Documents". Rather, they should be placed under the heading, "Other References". Indeed, an abstract is merely a summary of the contents of a document as viewed by someone other than the author of the original publication and, hence, does not necessarily accurately portray the actual teachings of said publication.

The case file contains another Information Disclosure Statement filed September 23, 2003 containing precisely the same documents as are listed on the present IDS. The Examiner initialed all of the documents cited with the exception of the non-patent-literature documents because Applicant had not furnished copies of the articles/abstracts mentioned. The initialed PTO-1449 form should have been sent out with the correspondence dated January 20, 2004. (As an aside, Applicant had also provided only the first page of the foreign patent documents listed. This is improper

practice and future submissions containing only the first page or an English language abstract where the document is recorded under the heading "foreign patent documents" will not be considered.)

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 571-272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
